

ICAR National Agricultural Practices & Farmer Welfare Handbook

Chapter 1: Natural Farming & Bio-Fertilizers

Farmers are encouraged to use Neem Oil (5ml per liter of water) for aphid and whitefly control.

Trichoderma viride bio-fungicide is recommended at 4g per kg seed for root rot and wilt prevention.

Chapter 2: Subsidized Micro-Irrigation (PMKSY)

Under PMKSY Per Drop More Crop, small farmers get up to 55% subsidy for installing Drip Irrigation.

Drip irrigation saves 40% water and increases fertilizer efficiency by up to 30%.

Chapter 3: Financial Assistance & Crop Security

1. PM-KISAN provides Rs 6000 per year directly into farmer bank accounts in 3 instalments.
2. PMFBY crop insurance covers crop damage due to drought, flood, and pest attack at 1.5% - 2% premium.
3. Kisan Credit Card (KCC) provides crop loans at an effective interest rate of 4% per annum.
